Zhour Developments

is a leading real estate developer with over 25 years of proven experience in delivering high-quality residential and mixed-use projects.

Since its establishment, the company has been committed to building not just properties, but trusted relationships—through consistent delivery, engineering excellence, and a strong dedication to client satisfaction.

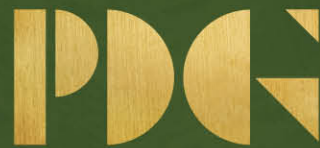

Over **25 years** of experience

More than **3,000 delivered** residential units

Over 20 completed projects

A strong reputation **built on trust** and commitment

Consultant

PLATOON
DESIGNS GROUP

Platoon Design Company

An Egyptian company with approximately 25 years of experience since its establishment in 2000.

Founders:

*** Prof. Dr. Tamer Abdel Aziz,**

Executive Director of the company, and a professor of urban planning at the Department of Architecture, Faculty of Engineering, Cairo University, and a senior urban planner at the General Organization for Urban Planning.

*** Asc. Prof. Dr. Hossam Moftah,**

Chairman of the Board of Directors of the company, and Assistant Professor at the Faculty of Engineering, British University in Cairo.

The company's expertise encompasses planning and several projects, as well as all integrated engineering design work, including planning, technology, construction, communication networks, site design, interior design, and construction supervision.

The company utilizes all the latest software and modern design tools that facilitate and expedite the design and implementation process, while also meeting all user needs and market demands.

The company undertakes numerous projects at both the governmental and private levels, both locally and internationally, and has implemented more than 30 residential areas and compounds, in addition to several malls and integrated urban centers.

Where Life is Designed Through Its Finest Details

In the heart of 6th of October City, and in a prime strategic location just minutes away from the Middle Ring Road, Fiori emerges as a modern urban landmark—where residential units are not merely built, but a complete lifestyle is thoughtfully designed.

Spanning 55 acres , with a total built-up area of 235,000 square meters, the project introduces an integrated residential community carefully developed across three master-planned phases, ensuring structured growth, phased execution, and long-term sustainability.

Fiori includes 131 residential buildings, designed according to contemporary architectural and engineering standards, offering approximately 3,850 residential units with a wide variety of layouts and sizes to accommodate diverse lifestyles and needs.

Facilities:

The units are surrounded by greenery and water features, along with more than 10 amenities such as malls, restaurants, a mosque, kids' area, a clubhouse, padel court, swimming pools, a gym, underground parking, and clinics. The entire compound is gated and equipped with smart gates and hundreds of security cameras to ensure security is at each glance.

LOCATION

Fiori Compound enjoys a prime and highly strategic location:

Directly on the Middle Ring Road
Less than 1 minute from Wahat Square
Less than 10 minutes from Fayoum Road
Less than 25 minutes from Sphinx International Airport
Less than 15 minutes from Al-Hosary District

In addition, the project is just minutes away from a wide range of universities and major shopping destinations.

And that's not all...

Fiori also features multiple commercial malls within the compound itself, offering a fully integrated lifestyle.

SITE LAYOUT

Layout Concept – Fiori

A rising community spanning a 55-acre land area along the middle ring road, the compound is designed to have a central elliptical landscape node that acts as a focal point. The units are aligned along this node and different landscape spines to ensure each unit gets a fair share of the extensive landscape views.

WATER FEATURE

GENERAL PERSPECTIVE

Facade concept –

The facades are designed to be a homogeneous piece of art, creating a rhythm with the balconies and frames. The colors and materials are chosen to be grounding, making the houses more relaxing. At ground level, the entrances are clearly defined to give a strong and welcoming sense of arrival. The unit numbers are engraved on each building.
