ABOUT CORONADO

Coronado North Coast is an opulent residential development with a variety of residential units available, including standalone villas, twin villas, and cottages. This project, located in the centre of Egypt's North Coast, is intended to meet the requirements of contemporary families seeking a luxurious lifestyle away from the hustle and bustle of the metropolis. The amazing sea view that Coronado North Coast residents can experience from their homes is one of the community's defining characteristics. Whether you choose a single villa, a twin villa, or a cabin, you will have stunning vistas of the Mediterranean Sea. Coronado North Coast standalone homes are intended to provide the utmost in luxury living. These spacious houses have a variety of features and conveniences, such as numerous bedrooms, sitting spaces, external terraces, and private swimming pools. The twin cottages at Coronado North Coast are ideal for those who desire a more compact living area. These homes feature two distinct units that share a wall, providing the ideal mix of seclusion and community life. Each twin house has its own private outdoor area, making it an excellent option for families with children. Finally, the Coronado North Coast chalets are a wonderful choice for those seeking a cosy and intimate living area.

NIGHTS

KIDSLIFE

The background is a full-frame underwater photograph. It shows a sandy ocean floor at the bottom, with a dense layer of fine sand and small, light-colored particles. Above the sand, the water is a deep, vibrant blue-green. Sunlight filters down from the surface, creating a pattern of bright, shimmering spots and rays that illuminate the scene. The overall effect is one of clarity and depth, typical of a clear tropical lagoon.
