memories filled
with wonder

A vertical rectangular image showing a night sky with the Milky Way galaxy. The galaxy's bright, hazy band of light stretches diagonally from the bottom right towards the top left. The background is a deep black, densely populated with numerous small, bright white stars. In the lower right portion of the image, the dark silhouette of a person is visible, looking upwards towards the stars. The person's head and shoulders are partially visible against the bright band of the Milky Way.
