THE MOST MAGNETIC ADDRESS ON AL MARJAN ISLAND

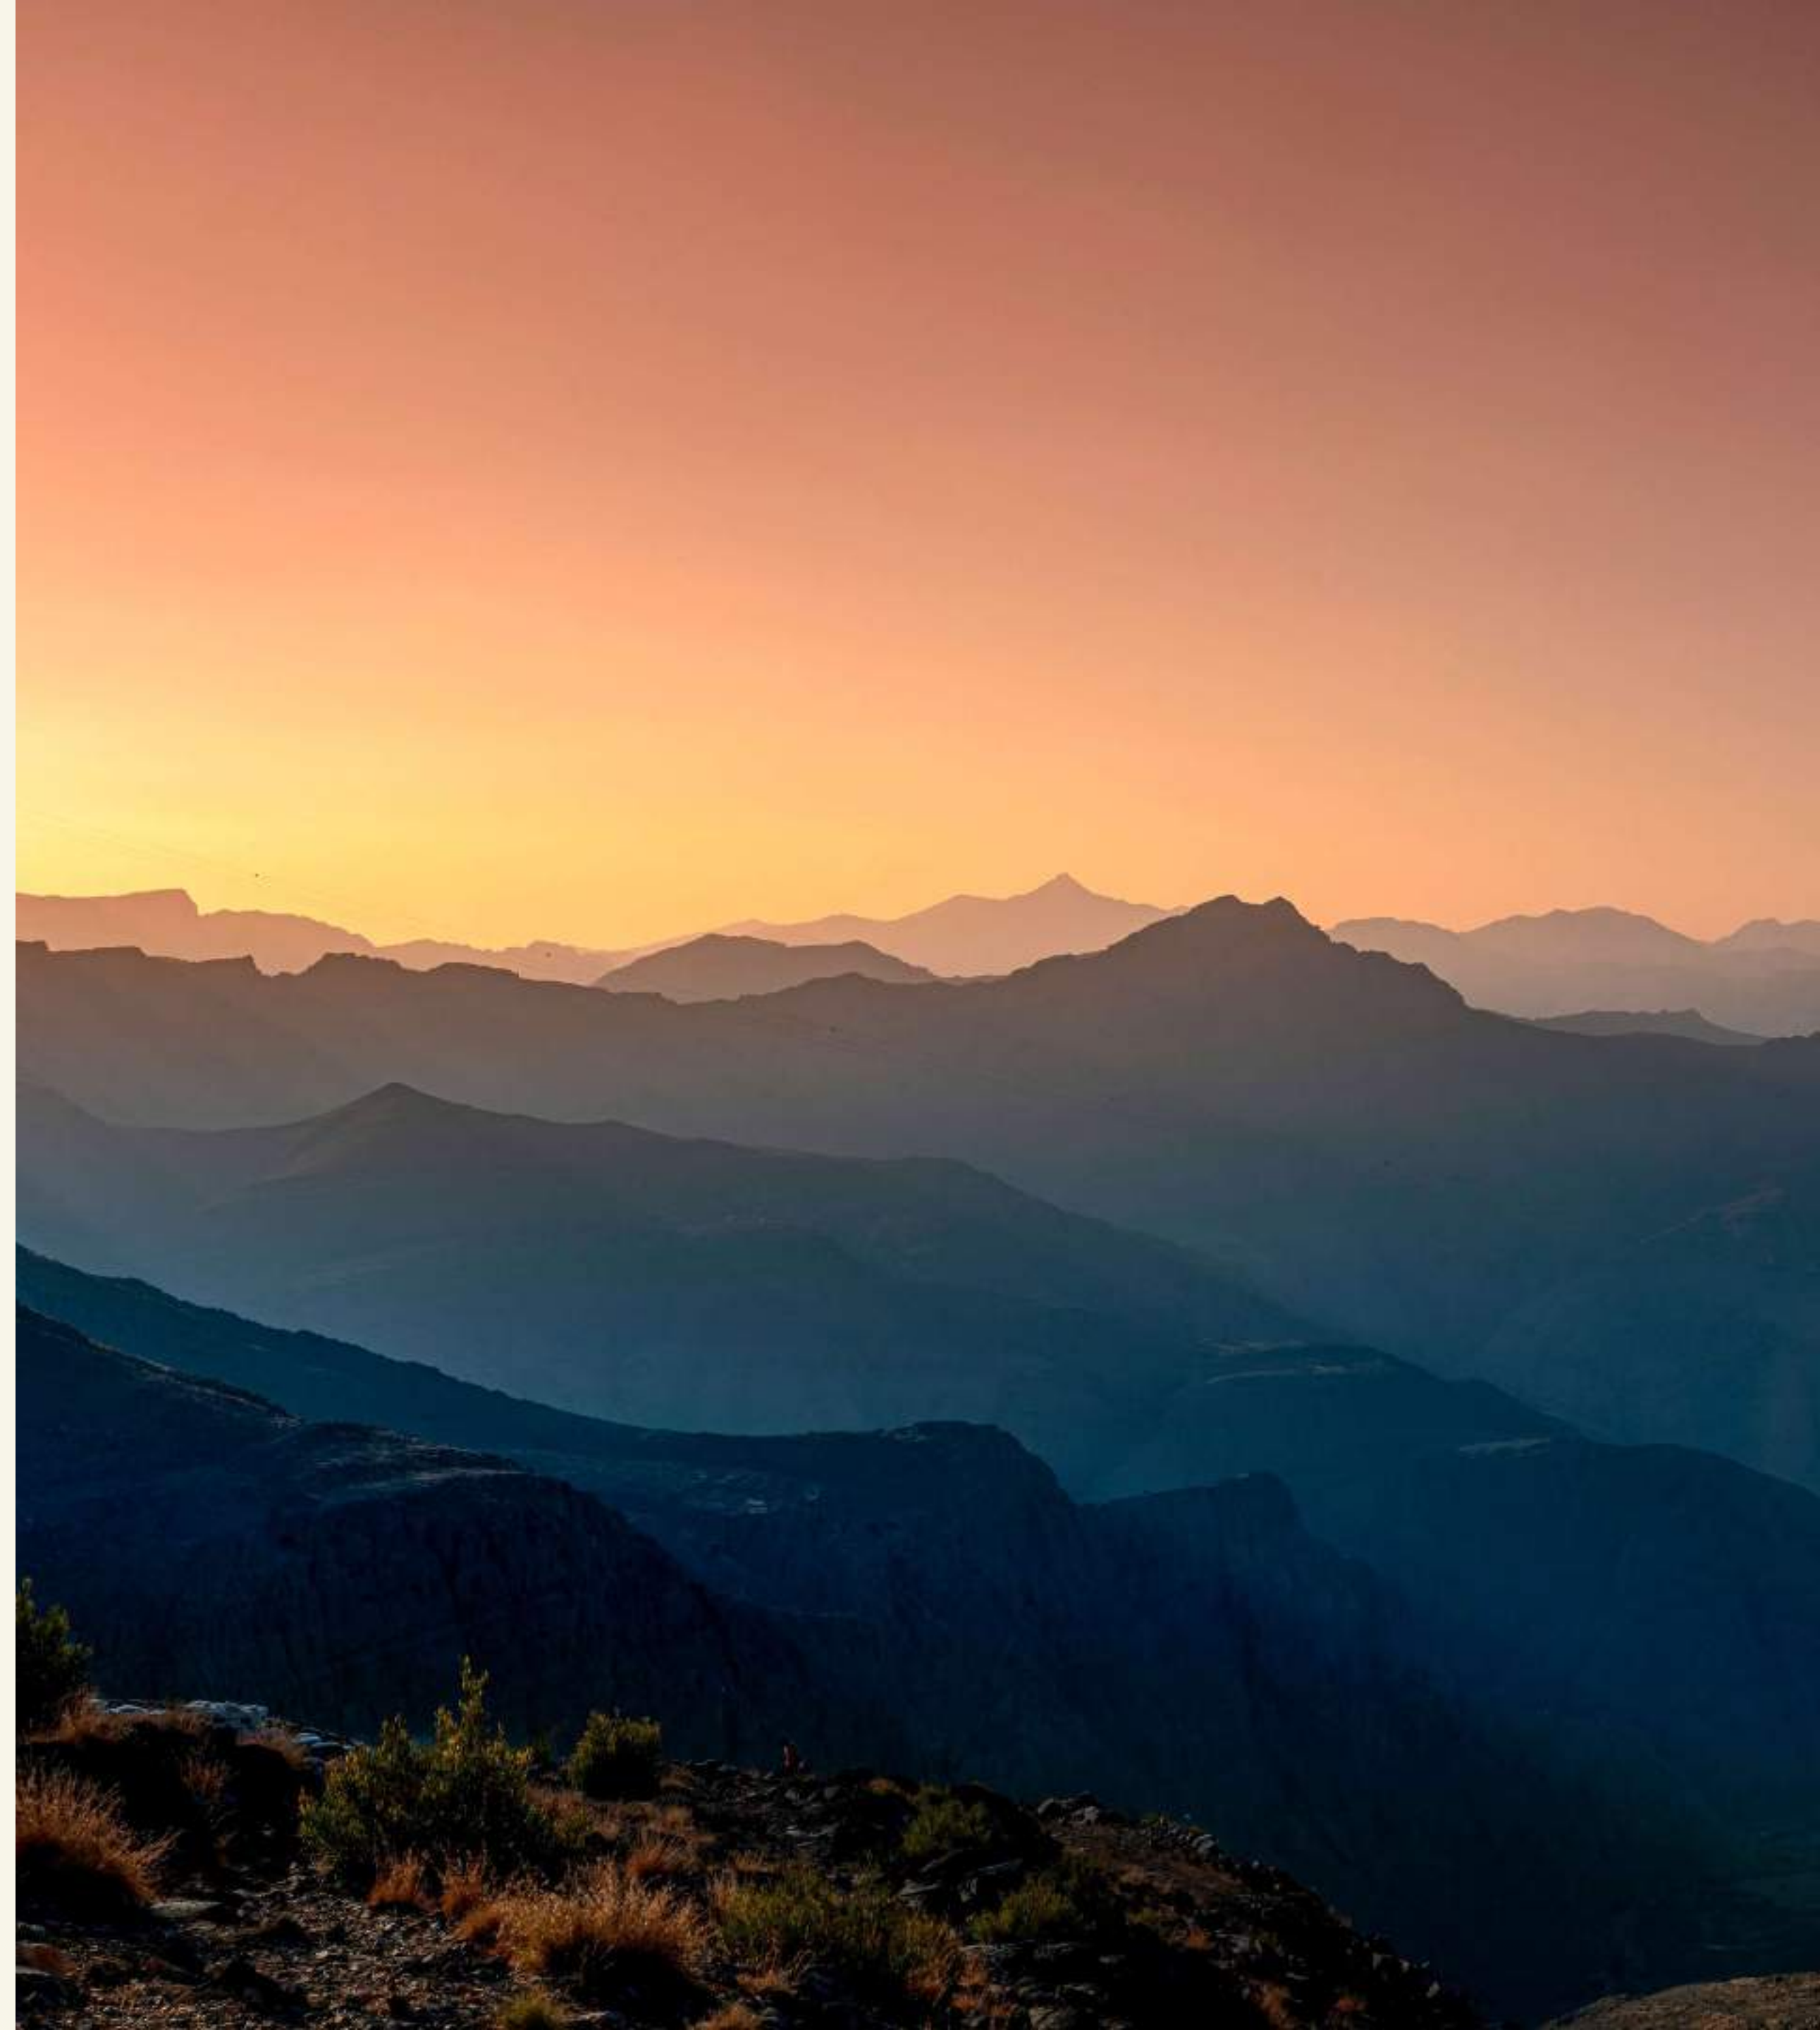

CHAPTER I:

WHERE IT BEGINS

LIFE WELL-LIVED... THE W WAY

At W Residences, lifestyle is a language, and every corner speaks it fluently.

It's more than the life you imagined... This is living, unfiltered, uninterrupted, and unmistakably yours.

**CLAIM THE HORIZON.
CALL IT HOME.**

A shift in pace. A new rhythm. A punctuation mark in a city that knows how to pause.

A bold residential statement, born on an island that does life well—and makes no apology for it. A horizon lined with views worth stopping for. A perspective of its own. A place shaped to give you more than you asked for, and exactly what you need.

This is W Al Marjan Residences. Where life sharpens, softens, and feels exactly yours.

A man and a woman are sitting on a boat, smiling and posing for a photo. The man is holding a camera up to his eye. They are both wearing sunglasses and swimwear. The boat is moving through the water, leaving a white wake behind it. In the background, there are rocky hills and a small town on the coast under a clear blue sky.

From one-bedroom retreats to 4-bedroom duplexes, each layout adapts to your pace of life and offers distinct views and signature design.

**WAVES. VIEWS.
WORLD CLASS.**

Comfort and luxury are embedded into every line and finish in W Al Marjan Residences.

This is a space where peaceful living becomes a ritual, with a view that shimmers between sea and skyline.

A SPACE SHAPED BY LIGHT AND LAYERS

Natural textures, statement lighting, and clean finishes define the space. Floor-to-ceiling windows let in natural light and offer clear views of the sea.

**THIS IS WHAT
UNRUSHED FEELS LIKE**

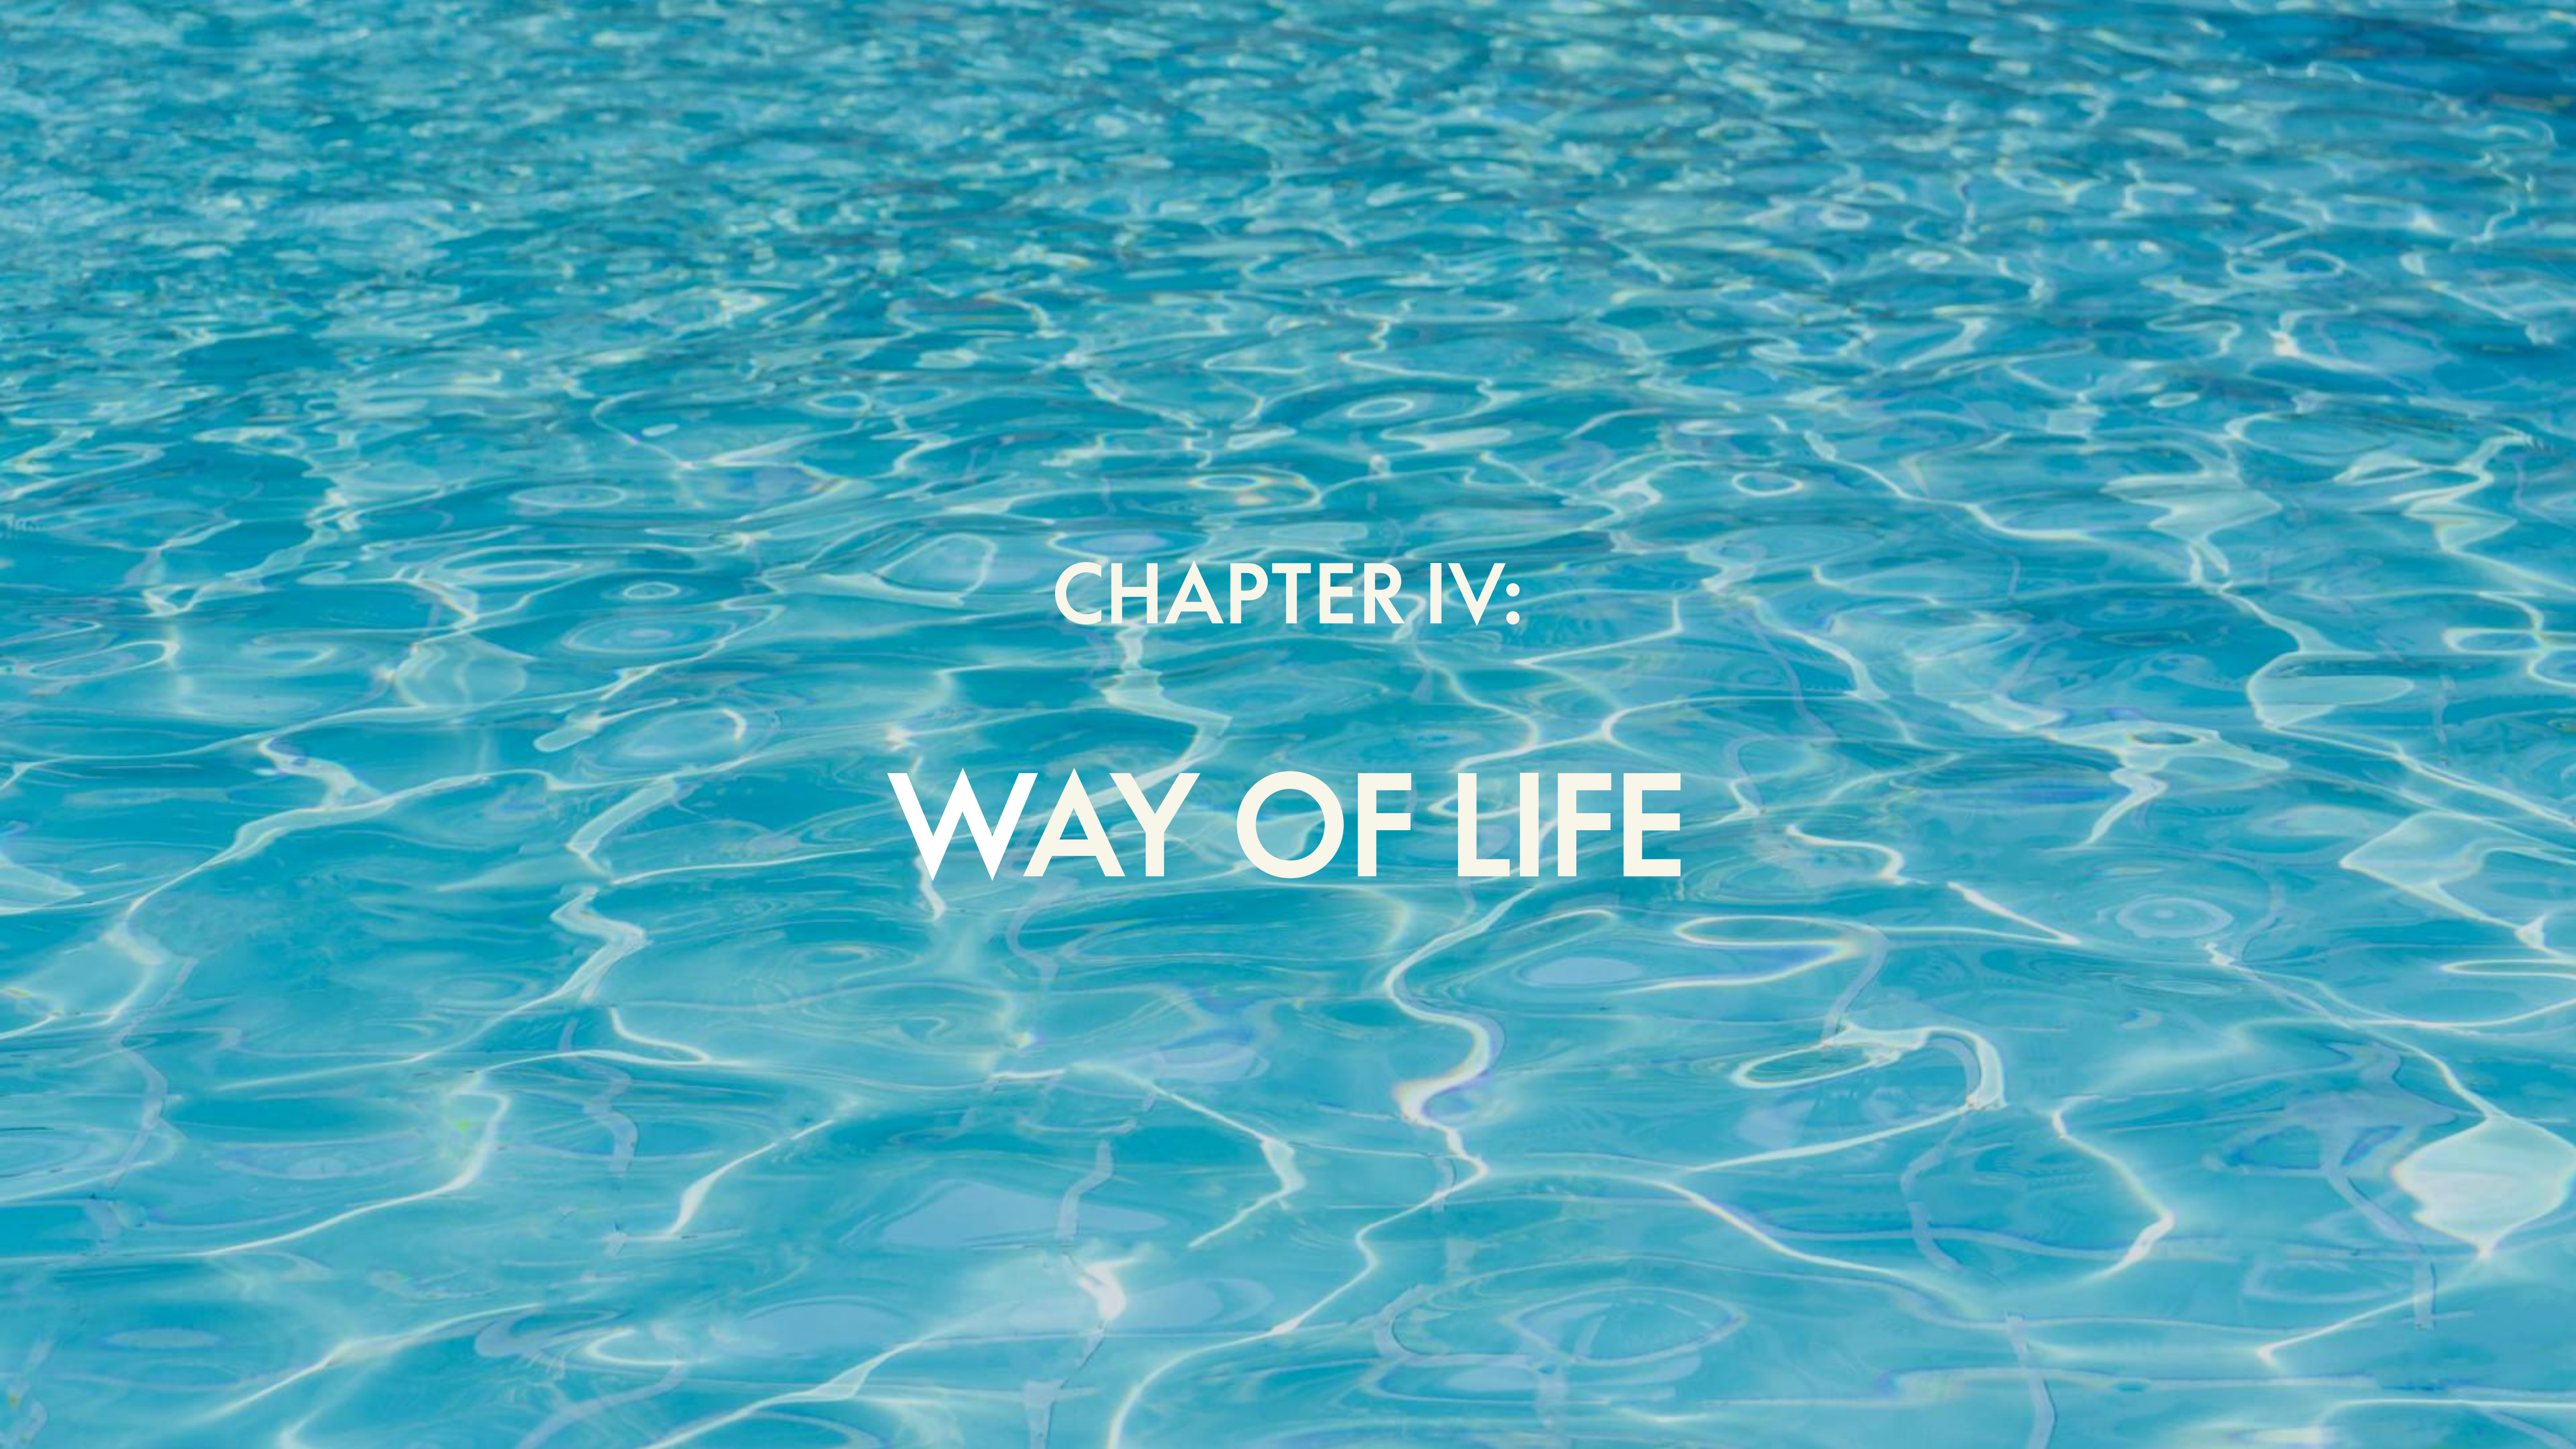

With natural light pouring in and tactile materials at every turn, the bedroom is a study in calmness. Subtle craft details, a layered palette, and uninterrupted sea views create a space that rests you in just right.

UNFILTERED VIEWS OF THE SEA

The background of the image is a close-up, high-angle shot of a body of water, likely a swimming pool. The water is a vibrant blue, and its surface is covered in a dense pattern of small, concentric ripples. These ripples are created by light reflecting off the water's surface, resulting in a shimmering, textured appearance. The lighting is bright, causing some areas of the water to appear lighter blue or white, while other areas are a deeper blue. The overall effect is one of movement and freshness.
