JiRiAN

The Core Nile Islands

The Nile Defines Eternal Living

BORN OF WATER

At the heart of New Zayed, where horizons meet possibility, a new story by the Nile unfolds. **Led by Nations of Sky, the master developer of JIRIAN City**, a 2200 feddan city not merely built, but imagined into being with a fully-integrated waterfront world where the river writes itself into every street, every view, every breath.

SHAPED BY VISION

Led by Nations of Sky as the master developer, the city unfolds with a vision as bold as the future itself. Nations of Sky aims at the scale of tomorrow—crafting a destination where architecture rises with light, where sustainability is not a promise but a pulse, and where the timeless Nile flows as the living spine of the city.

INTRODUCING JIRIAN

JIRIAN, the only fully master-planned city in Egypt with the Nile flowing through its core, is shaping a vibrant, water-centric urban experience. With world-renowned design, it is proof that Egypt's future is bold and beautiful - rooted in the river at its center but flowing towards a new era of innovation.

Channeling the river's timelessness, JIRIAN is the epitome of modern living with villa islands, lush parks, and a lively corniche that brings culture and leisure together. Here, every element flows together - home, work, and pleasure unite in a unique city shaped by water and softened by nature.

360 DEGREES OF LIFE
